

SYAUQI OMAR NAFIS

East Cikarang, Bekasi Regency, West Java, | syauqiomarnafis@gmail.com | linkedin.com/in/syauqiomarr

PROFESSIONAL SUMMARY

Industrial Engineering graduate (GPA 3.77/4.00) from Universitas Singaperbangsa Karawang, with a combination of operational, analytical, and leadership experience. Gained hands-on exposure to production planning, inventory control, and warehouse operations through internships using SAP and advanced Excel, while independently developing data analysis skills in Python through applied projects. Complements this technical foundation with proven organizational leadership, having directed a university-level division responsible for communication strategy and content production. Adaptable, detail-oriented, and eager to contribute across operations, analytics, or cross-functional project environments.

EDUCATION

Universitas Singaperbangsa Karawang (UNSIKA)

Karawang, Indonesia

Bachelor of Engineering in Industrial Engineering: GPA: 3.77/4.00

2022 – 2026

- Relevant coursework: Supply Chain Management, Production Planning & Inventory Control, Data Analytics, Master Data Management

PROFESSIONAL EXPERIENCE

PT Toyo Ink Indonesia (Artience Group)

Bekasi, Indonesia

Production Planning & Inventory Control (PPIC) Intern — Plastic Colorant

Dec 2024 – Feb 2025

- Built raw material plans in SAP and Excel by calculating purchase requirements, purchase orders, and supplier-facing forecasts, keeping replenishment aligned with production schedules
- Consolidated customer purchase order, reservation, and forecast data into the ERP system so planning inputs stayed accurate and current
- Calculated consumption, reservation, stock, total stock, and full-fill forecast figures to track inventory availability against production demand
- Translated planning outputs into production job sheets for the production department, bridging the gap between forecast and shop-floor execution
- Gained working proficiency in SAP ERP and advanced Excel (VLOOKUP/HLOOKUP, PivotTables) through daily inventory management tasks

PT Godong Jati Plastik

Bekasi, Indonesia

Warehouse Operator Intern

May 2026 – Jul 2026

- Assembled and organized product components into complete kits according to production and order specifications
- Labeled finished products and maintained recap records to keep inventory tracking and documentation accurate
- Prepared and packed finished goods for distribution in line with quality and safety standards

DATA ANALYTICS PROJECTS

Unsupervised Learning— K-Means Clustering (Customer Segmentation)

Independent Project

- Segmented 100 customers across 5 numeric features (age, income, spending score, purchase frequency, total spending) using K-Means clustering
- Validated the optimal cluster count ($k = 2$) by cross-checking the Elbow Method, Silhouette Score, and Davies-Bouldin Index, reaching a final Silhouette Score of 0.4375
- Applied PCA to visualize clusters in two dimensions (86.7% variance explained), distinguishing an established, price-conscious segment (63 customers) from a younger, high-frequency spending segment (37 customers) to support targeting strategy

Supervised Learning — Six-Model Comparison (Sales Forecasting)

Independent Project

- Benchmarked 6 forecasting models (Linear Regression, Random Forest, XGBoost, ARIMA, Prophet, LSTM) against 36 months of historical sales using a chronological train/test split
- Diagnosed overfitting by comparing train-vs-unseen error ratios, flagging XGBoost's 100.6x RMSE gap despite its near-perfect training fit
- Selected Linear Regression as the best-generalizing model for the unseen period (5.76% MAPE, 614.2 RMSE), favoring generalization over training accuracy

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

BEM UNSIKA (University Student Executive Board)

Karawang, Indonesia

Head, Communications and Information Division

Mar 2025 – Jan 2026

- Directed BEM UNSIKA's communication strategy, including publication planning and activity promotion across internal and external channels
- Produced graphic designs, videos, infographics, articles, and press releases (Adobe Photoshop, CorelDRAW, Canva) to publicize work programs and activities
- Built and maintained relationships with campus and external media to extend the reach of BEM initiatives
- Led delivery of flagship initiatives, including social media management, a company profile video, and the SPEKTRA event

BEM FT UNSIKA (Faculty of Engineering Student Executive Board)

Member, Strategic Studies and Action Division

Mar 2024 – Jan 2025

- Analyzed campus and community issues from multiple perspectives to identify actionable strategic responses
- Formulated strategic recommendations that shaped initiatives such as a political education seminar and a freedom-of-speech event

COMMITTEE EXPERIENCE

Steering Committee, SPEKTRA (Spektrum Edukasi dan Kreativitas Mahasiswa), UNSIKA

Jun 2025 –

Nov 2025

- Steered planning and execution of three flagship programs: a National Career Preparation Seminar, the Singaperbangsa Competition Series, and a National Seminar on Personal Branding

Events Division, National Online Seminar on Political Democracy Education

Aug 2024 – Oct 2024

- Developed the event concept and theme and prepared speaker briefing outlines
- Built a detailed run-of-show schedule and coordinated on-site technical execution

Field Coordinator Division, PKKMB & LDKM Inauguration Committee, Faculty of Engineering UNSIKA

Jun 2023 – Oct 2023

- Coordinated on-site execution and supervised field operations to ensure smooth delivery of activities
- Developed technical guidelines and assigned committee members to specific on-site responsibilities

CERTIFICATIONS

- Training Basic Excel & Dashboard Creation (VLOOKUP/HLOOKUP, PivotTables, SUMIF, Hyperlink, Data Analysis) — Dec 2024
- PPIC Plastic Colorant Internship Certificate — PT Toyo Ink Indonesia (Artience Group), 2025
- Warehouse Operator Internship Certificate — PT Godong Jati Plastik, 2026
- Organization and Committee Certificate

SKILLS

- **Technical:** SAP ERP, Microsoft Excel (Advanced: VLOOKUP/HLOOKUP, PivotTables, SUMIF, Dashboarding), Microsoft Word, Microsoft PowerPoint, Python (data analysis: clustering, forecasting), Adobe Photoshop, CorelDRAW, Canva
- **Core Competencies:** Production Planning & Inventory Control (PPIC), Supply Chain Management, Data Analysis, Project Management, Team Leadership
- **Languages:** Indonesian (Native), English (Professional Working Proficiency)
